

1. Introduction

2. Risk Assessment

2.1 Assets

2.2 Vulnerabilities

2.3 Risk Ranking

2.4 Recommended Controls

3. Encryption and Integrity Application

3.1 Encryption

3.2 Decryption

3.3 SHA-256 Integrity

3.4 Error Handling

3.5 Test Results

4. Network Traffic Filtering

4.1 Firewall Configuration

4.2 Permitted Connection Test

4.3 Blocked Connection Test 1

4.4 Blocked Connection Test 2

5. Project Evidence

5.1 Project Structure

5.2 GitHub Repository

5.3 Test Evidence

6. Conclusion
